### WORK EXPERIENCE

#### Frontend-Oriented Full Stack Developer | 01.2023 - Currently

Singularity Software Technologies

Led frontend development on two complex projects, with additional contributions on the backend side:

- Commersee: Acted as Frontend Lead for an e-commerce platform. Built responsive UI with React.js/Next.js and collaborated with backend and design teams to ensure performance and scalability. live app url: <https://www.commersee.com/tr/>
- Ranswer.ai: Led the frontend development of an AI-powered support platform. Also contributed to backend tasks like API integration and data handling.
- Ranswer.ai Mobile: Developed the mobile app using React Native, ensuring smooth UX and feature consistency with the web app.

#### Mobile Application Developer | 10.2022 - 01.2023

Singularity Software Technologies

- Developing a mobile e-commerce app using Flutter, focusing on core features like product listing, authentication, cart, and payment integration, with attention to performance and cross-platform compatibility.
